Speaker: Dennis Halloway: City Manager, Loma Linda

Mr. Dennis Halloway presented a most informative review of ongoing and future development projects in the City of Loma Linda. Aably assisted by Ms. Kathy Sorrells, he highlighted some of the more interesting developments such as the widening of the Mt. View overpass, library expansion, and the many new housing tracts under development. In keeping with the view shed, no more houses are to be allowed on the hills behind the city, but some development is planned in the valleys behind the hills. A new park, Heritage Park, off Redlands Blvd, will feature an historic grove house. The Beaumont street bridge over San Timoteo Creek, mostly a county project, should be completed within the next two years. The empty field at the lower end of Hulda Crooks Park will provide additional parking and host tennis courts. The City is phasing in fiberoptic cable to provide high speed internet connectivity as well as voice/visual transmission to all homes and commercial structures. All new homes in the city must be pre-wired for access to this system.

A topic that generated lot of interest was the issue of the red light photo enforcement system. They were installed to help with traffic control to prevent some of the many collisions like those that have occurred at the Mt. View Barton Road intersection when motorists run red lights. These sophisticated devices can photograph the license plate, the driver, take a 12 second movie, and measure speed. Words for the wise: drive safely!
